About Us

It is a sad fact that every day in our community somebody is the victim of family or domestic violence, abuse which can take many forms.

QIFVLS is a not-for-profit organisation which provides legal and counselling services to Aboriginal and Torres Strait Islander peoples suffering from the direct and indirect effects of domestic violence and sexual assault.

As a regional Queensland outreach service, QIFVLS operates at a grass roots level and challenges the perception that domestic violence is in any way normal or acceptable.

It is our ultimate aim to achieve justice and family wellbeing for all indigenous peoples.

Trinity Anglican School

A Vision For Our Future

6 The school will be led by a highly skilled and effective senior executive team, which will achieve best practice management. We will use the best available benchmarks to evaluate the effectiveness of the school's management. We will take a leading role in the Cairns educational community through our relationships and activities with other schools; and we will develop a succession plan for the future leadership of the school.

An environment that inspires learning

7 TAS will provide, maintain and develop quality facilities and material resources in keeping with the school's aspiration. We will review the master plan for both campuses and consult widely to develop the best possible building and maintenance programs. We will explore the merits of boarding house facilities and build partnerships with universities and other schools to ensure the stability and integrity of our provisions for overseas students.

Management to serve a learning community

8 TAS will be focused on controlling growth to ensure that an optimum size is achieved to maximise educational outcomes. We will develop a clear and professional marketing plan, focused on achieving sustainable growth through the promotion of the school's strengths and the exploitation of new opportunities. We will maintain the designated optimum level of class sizes and develop a strategic plan to better target full fee paying overseas students.

9 The management team will sustain a secure financial platform capable of maintaining the school at the forefront of education. We will adopt sound and prudent financial management practices and use industry benchmarks to monitor our effectiveness. We will explore opportunities for additional revenue and we will develop and implement a rolling five year plan to respond to current challenges and opportunities.

10 TAS will be responsive to the community we serve to guarantee the long term viability of the school. We will commit to an ongoing program of strategic planning and annual reviews. We will remain sensitive to the needs and responses of our stakeholders and we will continually explore opportunities for new products and services for the school and wider community.

Welcome

The mission of Trinity Anglican School is to nurture Christian formation and educational excellence in young people, inspiring them to reach their full potential as individuals and to service members of the wider community.

To remain true to this vision as we guide Trinity Anglican School through the next five years, we have developed a ten point plan of goals and strategies to ensure the success and sustainability of our future growth.

An educational program to build quality learning

1 Trinity Anglican School will be recognised as the best academic school in FNQ and a school which significantly enhances the prospects of students at all levels.

We will provide a dynamic curriculum, explore new avenues to further develop our IT strengths, and ensure that the school has a stronger Primary to Year 12 focus. We will constantly communicate and celebrate the success of our students to the school family and the wider Cairns community.

2 The school will be noted for producing balanced students – intellectually, socially, emotionally, spiritually and physically – through its strong personal development and pastoral care programs.

We will respond more fully to the special needs and interests of our students while striving for high standards of personal and school discipline. We will provide strong extra curriculum and pastoral care programs; and we will promote this cultural philosophy to the wider school family.

3 The school will produce students who are proud of their TAS heritage and are prepared to aspire to key roles in the community.

We will broadcast publicly the school's softwares and ethos at every opportunity. We will build stronger relationships with the local community to create new opportunities for our students; and we will recognize and document the history and culture of TAS for future generations.

4 TAS will serve as a Christian school providing a caring environment that openly encourages spiritual development. We will offer spiritual support to staff and students at every opportunity. We will build closer relationships between the School and parishes from Innisfail to Mossman.

People to build student success

5 Trinity Anglican School aims to select, professionally develop and retain highly competent, motivated and innovative academic staff.

We value our staff as our primary resource and will explore every opportunity to help them achieve their personal and career goals. We will develop recognition, appraisal and incentive programs, allow greater flexibility in the packaging of salaries and time-tabling, and we will encourage leadership aspirations.
