The Phantom was a **master** builder too.

Before he worked on the construction of the Paris Opera House, the *Angel of Music* was a gifted architect, engaged to build a palace for the Shar of Persia.

While we have yet to secure a royal commission, **Bryant** has won multiple Master Builders Awards for its sustainable design and construction across Northern Australia.

The coincidence was music to our ears. No wonder we decided to sponsor this winning production of Phantom of the Opera.
